| Immunogen                | Normal human peripheral blood lymphocytes                                                                                                                                                                                                                     |
| Produktbeschreibung      | HLA-B belongs to the HLA class I heavy chain paralogues. This class I molecule is a heterodimer consisting of a heavy chain and a light chain (beta-2 microglobulin). The heavy chain is anchored in the membrane. Class I molecules play a central role i... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [JOAN-1]                                                                                                                                                                                                                                                      |
