| Immunogen                | Membrane preparation of a small cell lung carcinoma                                                                                                                                                                                                           |
| Produktbeschreibung      | This MAb reacts with an extracellular domain (close to transmembrane) of CD56/NCAM. Three isoforms of neural cell adhesion molecule (NCAM) are produced by differential splicing of the RNA transcript from a single gene. The 135kDa isoform is the basic... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
