| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment of human p75 NGFR protein (around aa 281-421) (exact sequence is proprietary)                                                                                                                                                            |
| Produktbeschreibung      | It recognizes a glycoprotein of 75kDa, identified as low affinity Nerve Growth Factor (NGF) Receptor (p75NGFR) or Neurotrophin Receptor (p75NTR). NGFR is expressed in various neural crest cells and their tumors such as melanocytes, melanomas, neurobl... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [NGFR/1964]                                                                                                                                                                                                                                                   |
| NCBI                     | <a href="#">4804</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                            |
