| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, FACS, IF, IHC, WB                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human NPM1 protein fragment (aa185-287) (exact sequence is proprietary)                                                                                                                                                                           |
| Produktbeschreibung      | Recognizes a 33kDa glycoprotein, identified as Nucleophosmin (NPM). It is predominantly localized in the nucleus of cells in most tissues. NPM is involved in ribosomal assembly and rRNA transport. It is an abundant protein that is highly phosphorylat... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [NPM1/3286]                                                                                                                                                                                                                                                   |
| NCBI                     | <a href="#">4869</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                                 |
