| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, IF                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Nuclei of human myeloid leukemia biopsy cells                                                                                                                                                                                                                 |
| Produktbeschreibung      | This MAb is an excellent marker for human cells in xenographic model research. It reacts specifically with human cells. It is a part of a new panel of reagents, which recognizes subcellular organelles or compartments of human cells. These markers may... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [235-1]                                                                                                                                                                                                                                                       |
| Application Verdünnung   | Flow Cytometry (5ul per test per one million cells or 5ul per 100ul of whole blood),Immunofluorescence (1:50-1:100),                                                                                                                                          |
