## Product Datasheet

### [KO Validated] DJ-1/PARK7 Rabbit pAb, Unconjugated, Polyclonal ABB-A0987

|                          |                                                                                                |
|--------------------------|------------------------------------------------------------------------------------------------|
| Artikelname              | [KO Validated] DJ-1/PARK7 Rabbit pAb, Unconjugated, Polyclonal                                 |
| Artikelnummer            | ABB-A0987                                                                                      |
| Hersteller Artikelnummer | A0987                                                                                          |
| Alternativnummer         | ABB-A0987-100UL, ABB-A0987-20UL                                                                |
| Hersteller               | ABclonal                                                                                       |
| Wirt                     | Rabbit                                                                                         |
| Kategorie                | Antikörper                                                                                     |
| Applikation              | ELISA, IF, WB                                                                                  |
| Spezies Reaktivität      | Human                                                                                          |
| Immunogen                | Recombinant protein (or fragment).This information is considered to be commercially sensitive. |
| Konjugation              | Unconjugated                                                                                   |
| Klonalität               | Polyclonal                                                                                     |
| Molekulargewicht         | 20kDa                                                                                          |
| NCBI                     | <a href="#">11315</a>                                                                          |
| UniProt                  | <a href="#">Q99497</a>                                                                         |
| Reinheit                 | Affinity purification                                                                          |

|                        |                                                                                                                                                                                                                                                                                                                                   |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | WB,1:500 - 1:2000 IF/ICC,1:50 - 1:200 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.                                                                                                                                                           |
| Anwendungsbeschreibung | Cross-Reactivity: Human,Mouse. ResearchArea: Epigenetics Nuclear Signaling,Cancer,Signal Transduction,G protein signaling,Small G proteins,Endocrine Metabolism,Immunology<br>Inflammation,Neuroscience,Neurodegenerative Diseases,Dopamine Signaling in Parkinsons Disease,Neurodegenerative Diseases Markers. Shipping: Ice Bag |
