## Product Datasheet

### MonoMethyl-Histone H3-K9 Rabbit pAb, Unconjugated ABB-A2358

|                          |                                                                                 |
|--------------------------|---------------------------------------------------------------------------------|
| Artikelname              | MonoMethyl-Histone H3-K9 Rabbit pAb, Unconjugated                               |
| Artikelnummer            | ABB-A2358                                                                       |
| Hersteller Artikelnummer | A2358                                                                           |
| Alternativnummer         | ABB-A2358-100UL, ABB-A2358-20UL                                                 |
| Hersteller               | ABclonal                                                                        |
| Wirt                     | Rabbit                                                                          |
| Kategorie                | Antikörper                                                                      |
| Applikation              | ChIP, DOT, ELISA, IF, IHC-P, WB                                                 |
| Spezies Reaktivität      | Human                                                                           |
| Immunogen                | Synthetic peptide. This information is considered to be commercially sensitive. |
| Konjugation              | Unconjugated                                                                    |
| Molekulargewicht         | 15 kDa                                                                          |
| NCBI                     | <a href="#">8290</a>                                                            |
| UniProt                  | <a href="#">Q16695</a>                                                          |
| Reinheit                 | Affinity purification                                                           |

|                        |                                                                                                                                                                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | WB,1:500 - 1:1000 DB,1:500 - 1:2000 IHC-P,1:50 - 1:200 IF/ICC,1:50 - 1:200 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements. ChIP,5µg antibody for 5µg-10µg of Chromatin ChIP-s |
| Anwendungsbeschreibung | Cross-Reactivity: Human,Mouse,Rat,Other (Wide Range Predicted).<br>ResearchArea: Epigenetics Nuclear Signaling,Protein phosphorylation,Signal Transduction,MAPK-Erk Signaling Pathway.<br>Shipping: Ice Bag                                                     |
