## Product Datasheet

### Phospho-AKT1-T308 Rabbit pAb, Unconjugated ABB-AP1214

|                          |                                                                                                                                                                        |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Phospho-AKT1-T308 Rabbit pAb, Unconjugated                                                                                                                             |
| Artikelnummer            | ABB-AP1214                                                                                                                                                             |
| Hersteller Artikelnummer | AP1214                                                                                                                                                                 |
| Alternativnummer         | ABB-AP1214-100UL, ABB-AP1214-20UL                                                                                                                                      |
| Hersteller               | ABclonal                                                                                                                                                               |
| Wirt                     | Rabbit                                                                                                                                                                 |
| Kategorie                | Antikörper                                                                                                                                                             |
| Applikation              | ELISA, IHC-P, WB                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                  |
| Immunogen                | Synthetic peptide. This information is considered to be commercially sensitive.                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                           |
| Molekulargewicht         | 56kDa                                                                                                                                                                  |
| NCBI                     | <a href="#">207</a>                                                                                                                                                    |
| UniProt                  | <a href="#">P31749</a>                                                                                                                                                 |
| Reinheit                 | Affinity purification                                                                                                                                                  |
| Application Verdünnung   | WB,1:500 - 1:1000 IHC-P,1:50 - 1:200 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements. |

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| Anwendungsbeschreibung | <p>Cross-Reactivity: Human,Mouse,Rat. ResearchArea: Epigenetics<br/>Nuclear Signaling,Translation Control,Regulation of eIF4 and p70 S6<br/>Kinase,Protein phosphorylation,Cancer,Signal Transduction,G protein<br/>signaling,Kinase,Serine threonine kinases,PI3K-Akt Signaling<br/>Pathway,mTOR Signaling Pathway,ErbB-HER Signaling Pathway,Cell<br/>Biology Developmental Biology,Apoptosis,Mitochondrial Control of<br/>Apoptosis,Inhibition of Apoptosis,Cell Cycle,Cell Cycle Control-G1 S<br/>Checkpoint,Cell Adhesion,Microtubules,TGF-b-Smad Signaling<br/>Pathway,ESC Pluripotency and Differentiation,Endocrine<br/>Metabolism,AMPK Signaling Pathway,Insulin Receptor Signaling<br/>Pathway,Warburg Effect,Immunology Inflammation,B Cell Receptor<br/>Signaling Pathway,T Cell Receptor Signaling Pathway,Jak-Stat-IL-6<br/>Receptor Signaling Pathway,NF-kB Signaling<br/>Pathway,Neuroscience,Neurodegenerative Diseases,Amyloid Plaque<br/>and Neurofibrillary Tangle Formation in Alzheimers<br/>Disease,Cardiovascular,Angiogenesis. Shipping: Ice Bag</p> |
