| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | Recombinant Human TGF-beta receptor type-2/TGFR-2 Protein is produced by HEK293 expression system. The target protein is expressed with sequence (Thr23-Asp159) of human TGFBR2 (Accession NP_003233.4) fused with an Fc, 6*His tag at the C-terminus.... |
| Molekulargewicht         | 42.30 kDa                                                                                                                                                                                                                                                 |
