| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FLISA, IF, WB                                                                                                                                                                                                                                                 |
| Immunogen                | Influenza B/Lee/40 and B/Singapore/-222/79 viruses                                                                                                                                                                                                            |
| Produktbeschreibung      | The influenza viruses, classified as type A, B and C, are members of the Orthomyxoviridae family which differ in their epidemiology and host ranges and lack serological cross-reactivity of their internal components, especially their matrix proteins a... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [3H2463]                                                                                                                                                                                                                                                      |
| Isotyp                   | IgG2b                                                                                                                                                                                                                                                         |
| Reinheit                 | Purified by affinity chromatography from tissue culture supernatant                                                                                                                                                                                           |

|              |                                                                          |
|--------------|--------------------------------------------------------------------------|
| Formulierung | Supplied as a liquid in PBS, pH 7.2. Labeled with Allophycocyanin (APC). |
