## Product Datasheet

### PHGDH Rabbit pAb, Unconjugated, Polyclonal ABB-A10461

|                          |                                                                                                 |
|--------------------------|-------------------------------------------------------------------------------------------------|
| Artikelname              | PHGDH Rabbit pAb, Unconjugated, Polyclonal                                                      |
| Artikelnummer            | ABB-A10461                                                                                      |
| Hersteller Artikelnummer | A10461                                                                                          |
| Alternativnummer         | ABB-A10461-1000UL, ABB-A10461-500UL, ABB-A10461-100UL, ABB-A10461-20UL, ABB-A10461-10UL         |
| Hersteller               | ABclonal                                                                                        |
| Wirt                     | Rabbit                                                                                          |
| Kategorie                | Antikörper                                                                                      |
| Applikation              | ELISA, IF, IP, WB                                                                               |
| Spezies Reaktivität      | Human                                                                                           |
| Immunogen                | Recombinant protein (or fragment). This information is considered to be commercially sensitive. |
| Konjugation              | Unconjugated                                                                                    |
| Klonalität               | Polyclonal                                                                                      |
| Molekulargewicht         | 57kDa                                                                                           |
| NCBI                     | 26227                                                                                           |

|                        |                                                                                                                                                                                                                                        |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| UniProt                | O43175                                                                                                                                                                                                                                 |
| Reinheit               | Affinity purification                                                                                                                                                                                                                  |
| Target-Kategorie       | PHGDH                                                                                                                                                                                                                                  |
| Application Verdünnung | WB,1:500 - 1:1000 IF/ICC,1:100 - 1:500 IP,0.5µg-4µg antibody for 200µg-400µg extracts of whole cells ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements. |
| Anwendungsbeschreibung | Cross-Reactivity: Human, Mouse, Rat. ResearchArea: Signal Transduction,Endocrine Metabolism,Amino acid metabolism,Neuroscience.<br>Shipping: Ice Bag                                                                                   |
