| Hersteller               | EXBIO                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Applikation              | WB, FC, IHC-P, IP                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Rabbit, ferret, Bovine, Human                                                                                                                                                                                                                                |
| Immunogen                | Recombinant N-terminal peptide (Asp15-Asp27) of human C5aR                                                                                                                                                                                                   |
| Produktbeschreibung      | CD88 / C5aR is a G protein-coupled seven membrane-spanning protein serving as a receptor for C5a component of the complement cascade, and is expressed mainly by monocytes, macrophages, neutrophils, eosinophils, and mast cells, but also e.g. by hepat... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                   |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [S5/1]                                                                                                                                                                                                                                                       |
| Isotyp                   | IgG2a, kappa                                                                                                                                                                                                                                                 |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                  |
| Lagerung                 | 2°C to 8°C                                                                                                                                                                                                                                                   |

|                        |                                                   |
|------------------------|---------------------------------------------------|
| Antibody Type          | Monoclonal Antibody                               |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 3-12 µg/ml. |
