| Kategorie                | Antikörper                                                                                                                                                                                                                                                  |
| Applikation              | IP, IHC-Fr, FC                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                       |
| Immunogen                | BALB/c thymocytes                                                                                                                                                                                                                                           |
| Produktbeschreibung      | CD26, also known as dipeptidyl peptidase IV (DPP-IV), is a homodimeric cell surface serine peptidase that degrades IFN-gamma-induced cytokines, acts as a T cell costimulatory molecule, and participates in multiple immunopathological roles in leukoc... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                  |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [H194-112]                                                                                                                                                                                                                                                  |
| Isotyp                   | IgG2a, kappa                                                                                                                                                                                                                                                |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                 |
| Lagerung                 | 2°C to 8°C                                                                                                                                                                                                                                                  |

|                        |                                                  |
|------------------------|--------------------------------------------------|
| Antibody Type          | Monoclonal Antibody                              |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-4 µg/ml. |
