| Applikation              | FC, IHC-Fr, IP, WB                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | human rhinovirus 14-infected monocyte-derived dendritic cells                                                                                                                                                                                                 |
| Produktbeschreibung      | CD169, also known as Siglec-1 or sialoadhesin, is a type I transmembrane glycoprotein of the sialic acid binding Ig-like lectin family. It binds to sialylated glycoproteins on various haematopoietic cells to mediate cell-cell interactions. CD169 is e... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [7-239]                                                                                                                                                                                                                                                       |
| Isotyp                   | Mouse IgG1                                                                                                                                                                                                                                                    |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |
| Lagerung                 | 2°C to 8°C                                                                                                                                                                                                                                                    |

|                        |                                                 |
|------------------------|-------------------------------------------------|
| Target-Kategorie       | CD169                                           |
| Antibody Type          | Monoclonal Antibody                             |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-4 µg/ml |
