| Hersteller               | EXBIO                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB, FC, ELISA, IP                                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Primate, Human                                                                                                                                                                                                                                                |
| Immunogen                | A crude mixture of human urinary proteins precipitated by ammonium sulphate from the urine of a patient suffering from proteinuria.                                                                                                                           |
| Konjugation              | Biotin                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | CD14 is a 55 kDa GPI-anchored glycoprotein, constitutively expressed on the surface of mature monocytes, macrophages, and neutrophils, where it serves as a multifunctional lipopolysaccharide receptor. It is also released to the serum both as a secret... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [MEM-18]                                                                                                                                                                                                                                                      |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|                        |                                                             |
|------------------------|-------------------------------------------------------------|
| Puffer                 | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide |
| Lagerung               | 2°C to 8°C                                                  |
| Antibody Type          | Monoclonal Antibody                                         |
| Anwendungsbeschreibung | Flow cytometry: recommended dilution: 2-4 µg/ml.            |
