| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IHC-P, IP, WB                                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Human thymocytes and T lymphocytes.                                                                                                                                                                                                                           |
| Konjugation              | Biotin                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | CD45RA is a high molecular weight isoform of a receptor-type protein tyrosine phosphatase, CD45 glycoprotein. CD45 is crucial in lymphocyte development and antigen signaling, serving as an important regulator of Src-family kinases, promotes cell surv... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [MEM-56]                                                                                                                                                                                                                                                      |
| Isotyp                   | Mouse IgG2b                                                                                                                                                                                                                                                   |
| Puffer                   | Tris buffered saline (TBS), pH 8.0, 15 mM sodium azide                                                                                                                                                                                                        |

|                        |                                                  |
|------------------------|--------------------------------------------------|
| Lagerung               | 2°C to 8°C                                       |
| Target-Kategorie       | CD45RA                                           |
| Antibody Type          | Monoclonal Antibody                              |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-5 µg/ml. |
