| Hersteller               | EXBIO                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB, FC, IHC-P, IP                                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Protein A-CR purified soluble recombinant form of CD147, CD147Rg, which consists of the cDNA coding for the hinge region, CH2-and CH3 domain of human IgG1 (CD147Rg is secreted by transfectants as a dimer).                                                 |
| Konjugation              | Biotin                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | CD147 (basigin, neurothelin, OX-47, 5A11, CE9, M6) also known as EMMPRIN (extracellular matrix metalloproteinase inducer) or TCSF (tumour cell-derived collagenase-stimulatory factor) is an ubiquitously expressed cell surface protein with multiple gly... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [MEM-M6/1]                                                                                                                                                                                                                                                    |

|                        |                                                             |
|------------------------|-------------------------------------------------------------|
| Isotyp                 | IgG1                                                        |
| Puffer                 | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide |
| Lagerung               | 2°C to 8°C                                                  |
| Antibody Type          | Monoclonal Antibody                                         |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 8 µg/ml.              |
