| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Normal human lymphocytes from lymph node.                                                                                                                                                                                                                     |
| Konjugation              | Biotin                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | CD20 is a cell surface 33-37 (depending on the degree of phosphorylation) kDa non-glycosylated surface phosphoprotein expressed on mature and most malignant B cells, but not stem cells or plasma cells (low number of the CD20 has been also detected on... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [LT20]                                                                                                                                                                                                                                                        |
| Isotyp                   | Mouse IgG2a                                                                                                                                                                                                                                                   |

|                        |                                                             |
|------------------------|-------------------------------------------------------------|
| Puffer                 | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide |
| Lagerung               | 2°C to 8°C                                                  |
| Target-Kategorie       | CD20                                                        |
| Antibody Type          | Monoclonal Antibody                                         |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 2-5 µg/ml.            |
