| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Purified human IgG.                                                                                                                                                                                                                                           |
| Konjugation              | PE                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | Immunoglobulin G (IgG) is a 150 kDa soluble protein that serves as a major effector molecule of the humoral immune response in man. Its concentration in blood plasma of healthy individuals is approximately 10 g/l, which accounts for about 75% of the ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.1 mg/ml                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [4A11]                                                                                                                                                                                                                                                        |
| Isotyp                   | IgG2b                                                                                                                                                                                                                                                         |

|                        |                                                                         |
|------------------------|-------------------------------------------------------------------------|
| Puffer                 | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide |
| Lagerung               | 2°C to 8°C                                                              |
| Antibody Type          | Monoclonal Antibody                                                     |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-5 µg/ml.                        |
