| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | A partial length recombinant GAPDH protein (amino acids 120-320) was used as the immunogen for this antibody.                                                                                                                                                 |
| Produktbeschreibung      | GAPDH (Glyceraldehyde-3-Phosphate Dehydrogenase) is an enzyme best known for its role in glycolysis. However, extra-glycolytic functions of GAPDH have been described, including regulation of protein expression via RNA binding. GAPDH binds to numerous... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ABM22C5]                                                                                                                                                                                                                                                     |
| Isotyp                   | Mouse IgG1, Kappa                                                                                                                                                                                                                                             |

|                        |                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------|
| NCBI                   | <a href="#">2597</a>                                                                                          |
| UniProt                | <a href="#">P04406</a>                                                                                        |
| Puffer                 | 25 µg in 50 µl/100 µg in 200 µl PBS containing 0.05%BSA and 0.05% sodium azide. Sodium azide is highly toxic. |
| Reinheit               | Protein G Chromatography                                                                                      |
| Formulierung           | Purified                                                                                                      |
| Formel                 | 100 µg in 200 µl PBS containing 0.05%BSA and 0.05% sodium azide. Sodium azide is highly toxic.                |
| Target-Kategorie       | GAPDH                                                                                                         |
| Application Verdünnung | Western blot analysis: 0.5-2 µg/ml, Immunohistochemical analysis: 5 µg/ml                                     |
