| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | NIH-3T3/CD318 cells                                                                                                                                                                                                                                           |
| Konjugation              | APC                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | CD318 (CUB domain containing protein 1) is a complement domains-containing transmembrane glycoprotein, which takes part in early hematopoiesis. It is expressed on CD34+CD133+ bone marrow cells, keratinocytes, and in human colorectal and breast cancer... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [CUB1]                                                                                                                                                                                                                                                        |
| Isotyp                   | Mouse IgG2b                                                                                                                                                                                                                                                   |

|                        |                                                                                                                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                   |
| Target-Kategorie       | CD318                                                                                                                                                                                                                     |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                                                                       |
| Application Verdünnung | Flow cytometry: The reagent is designed for analysis of human blood cells using 10 µl reagent / 100 µl of whole blood or 10 <sup>6</sup> cells in a suspension. The content of a vial (1 ml) is sufficient for 100 tests. |
