| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IHC-P, WB                                                                                                                                                                                                                                                 |
| Spezies Reaktivität      | Human, Mouse, Rat, Zebrafish                                                                                                                                                                                                                                  |
| Immunogen                | Synthetic peptide within Human GAPDH aa 174-223 / 335.                                                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Has both glyceraldehyde-3-phosphate dehydrogenase and nitrosylase activities, thereby playing a role in glycolysis and nuclear functions, respectively. Participates in nuclear events including transcription, RNA transport, DNA replication and apoptos... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 2 mg/mL.                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [12D7]                                                                                                                                                                                                                                                        |
| Molekulargewicht         | Predicted band size: 36 kDa                                                                                                                                                                                                                                   |

|                        |                                                                          |
