| Kategorie                | Antikörper                                                                                                                                                                                                             |
| Applikation              | ELISA, NeA                                                                                                                                                                                                             |
| Spezies Reaktivität      | Virus                                                                                                                                                                                                                  |
| Produktbeschreibung      | This clone was originally isolated in a form of a synthetic nanobody (sybody) via a target swap selection procedure against RBD-vYFP using ribosomal display and against RBD-Fc fusion during phage display rounds.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                             |
| Klon-Bezeichnung         | [Sb68]                                                                                                                                                                                                                 |
| Isotyp                   | VHH                                                                                                                                                                                                                    |
