Product Datasheet

Anti-Cytokinin | Meta-topolin riboside (for immunolocalization), Rabbit, Polyclonal AGR-AS09-440

Artikelname	Anti-Cytokinin Meta-topolin riboside (for immunolocalization), Rabbit, Polyclonal
Artikelnummer	AGR-AS09-440
Hersteller Artikelnummer	AS09-440
Alternativnummer	AGR-AS09-440
Hersteller	Agrisera
Wirt	Rabbit
Kategorie	Antikörper
Applikation	IL
Immunogen	BSA-conjugated via ribose, meta-topolin riboside
Produktbeschreibung	Cytokinins (CK) belong to a class of plant growth substances (plant hormones) which promote cell division by means of local and long distance signalling. Zeatin is an adenine-type cytokinin synthesised in stems, leaves and roots....
Klonalität	Polyclonal
Reinheit	Total IgG. Protein G purified in PBS.
Formulierung	Liquid
Antibody Type	Polyclonal Antibody
Application Verdünnung	Specific information about dilution is going to be included on the vial

Anwendungsbeschreibung

For 1 mg of antibodies For ELISA and immunoassay or For ELISA kit - please inquire, Antibodies are supplied in 50% glycerol
