| Alternativnummer         | AGR-AS10-703                                                                                                                                                                                                                                 |
| Hersteller               | Agrisera                                                                                                                                                                                                                                     |
| Wirt                     | Rabbit                                                                                                                                                                                                                                       |
| Kategorie                | Antikörper                                                                                                                                                                                                                                   |
| Applikation              | WB                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | A. thaliana, Bacteria, Plant                                                                                                                                                                                                                 |
| Immunogen                | Recombinant mature Deg5 of Arabidopsis thaliana Q9SEL7 (At4g18370) with chloroplast and thylakoid-transfer domains excluded, overexpressed in E.coli                                                                                         |
| Produktbeschreibung      | Deg5 belongs to S1 chymotrypsin protease family and contains 16 protein members in Arabidopsis thaliana. Deg5 is localized to chloroplast, within the thylakoid. Alternative protein names: DegP5 or HhoA homologue or DegQ (in bacteria)... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                   |
| Molekulargewicht         | 27.06   28 kDa                                                                                                                                                                                                                               |
| NCBI                     | <a href="#">827564</a>                                                                                                                                                                                                                       |
| UniProt                  | <a href="#">Q9SEL7</a>                                                                                                                                                                                                                       |

|                        |                                                |
|------------------------|------------------------------------------------|
| Reinheit               | Serum                                          |
| Formulierung           | Lyophilized                                    |
| Antibody Type          | Polyclonal Antibody                            |
| Application Verdünnung | 1 : 1000 (WB)                                  |
| Anwendungsbeschreibung | For reconstitution add 200 µl of sterile water |
