Product Datasheet

Anti-HA, FITC-conjugated (chicken antibody), Gallus, Polyclonal AGR-AS20-4464

| | |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname | Anti-HA, FITC-conjugated (chicken antibody), Gallus, Polyclonal |
| Artikelnummer | AGR-AS20-4464 |
| Hersteller Artikelnummer | AS20-4464 |
| Alternativnummer | AGR-AS20-4464 |
| Hersteller | Agrisera |
| Wirt | Gallus |
| Kategorie | Antikörper |
| Applikation | FC |
| Immunogen | KLH-conjugated synthetic peptide YPYDVPDYA of influenza virus hemagglutinin. |
| Konjugation | fitc |
| Produktbeschreibung | HA-tag is derived from a human influenza hemagglutinin HA-molecule corresponding to amino acids 96-106 and is used as a general epitope tag in expression vectors. An anti-HA antibody can then be used to detect the protein on western blot or to immuno... |
| Klonalität | Polyclonal |
| Reinheit | Immunogen affinity purified in PBS pH 7.2, containing 0.1% sodium azide, FITC conjugated. |
| Formulierung | Liquid |
| Antibody Type | Polyclonal Antibody |

| | |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Assay dependent |
| Anwendungsbeschreibung | Molar F/P ratio is 3.6 and indicates an average number of FITC molecules/IgY molecule as determined by the extinction values at 495 nm and 280 nm (OD495 and OD280), respectively |
