| Hersteller Artikelnummer | GTX74479-PEP                                                                                                                                                                                                                                                  |
| Alternativnummer         | GTX74479-PEP-100                                                                                                                                                                                                                                              |
| Hersteller               | GeneTex                                                                                                                                                                                                                                                       |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Apuri, Blocking, ELISA                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | This gene is a member of a group of genes whose transcript levels are increased following stressful growth arrest conditions and treatment with DNA-damaging agents. The induction of this gene by ionizing radiation occurs in certain cell lines regardl... |
| Sensitivitaet            | The peptide was used in the production of GTX74479.                                                                                                                                                                                                           |
| NCBI                     | <a href="#">23645</a>                                                                                                                                                                                                                                         |
| Puffer                   | Reconstitute with 200µl distilled water to obtain a 0.5mg/ml peptide solution. Lyophilized from 5% (v/v) acetonitrile/H2O, no preservative.                                                                                                                   |
| Formulierung             | Lyophilized powder                                                                                                                                                                                                                                            |
| Sequenz                  | C-AAALDLSGRRG                                                                                                                                                                                                                                                 |
