| Spezies Reaktivität      | Human, Mollusc, Mouse, Rat                                                                                                                                                                                                                                    |
| Immunogen                | Fusion protein amino acids 1168-1237 of rat Slo2.2 (accession number NP_068625) produced recombinantly in E. Coli                                                                                                                                             |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Our Anti-Slo2.2/Slack K+ channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N3/26. It is KO validated, detects human, marine mollusk, mouse, and rat Slo2.2/Slack K+ channel, and is purified by Protein A ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                       |

|                        |                                                                                    |
|------------------------|------------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [N3/26]                                                                            |
| Molekulargewicht       | 140 kDa                                                                            |
| Isotyp                 | IgG1                                                                               |
| UniProt                | <a href="#">Q9Z258</a>                                                             |
| Puffer                 | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.4                      |
| Reinheit               | Purified by Protein A chromatography                                               |
| Formulierung           | Purified by Protein A chromatography                                               |
| Target-Kategorie       | Slo2.2/Slack K <sup>+</sup> channel                                                |
| Antibody Type          | Primary Antibody                                                                   |
| Application Verdünnung | Dilution Range: WB: 1:1000. Dilution Range: IHC: 1:400. Dilution Range: ICC: 1:250 |
