| Applikation              | ICC, IHC, IP, WB                                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                                 |
| Immunogen                | Fusion protein amino acids 1019-1293 (cytoplasmic loop between repeat II and repeat III) of human Cav3.2 (accession number O95180), epitope mapped to amino acids 1179-1192 (AEDGRAAPGPRATP) produced recombinantly in E. Coli                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | Our Anti-Cav3.2 Ca <sup>2+</sup> channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N55/10. It is KO validated, detects human and mouse Cav3.2 Ca <sup>2+</sup> channel, and is purified by Protein A chromatography. It is great f... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                            |

|                  |                                                                |
|------------------|----------------------------------------------------------------|
| Konzentration    | 1 mg/mL                                                        |
| Klon-Bezeichnung | [N55/10]                                                       |
| Molekulargewicht | 260 kDa                                                        |
| Isotyp           | IgG1                                                           |
| UniProt          | <a href="#">O95180</a>                                         |
| Puffer           | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.22 |
| Reinheit         | Purified by Protein A chromatography                           |
| Formulierung     | Purified by Protein A chromatography                           |
| Target-Kategorie | Cav3.2 Ca <sup>2+</sup> channel                                |
| Antibody Type    | Primary Antibody                                               |
