Mouse anti Integrin alpha 3B + alpha 6B, IgG1, Clone: [PB36], Monoclonal NMB-MUB0903P

| | |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Article Name | Mouse anti Integrin alpha 3B + alpha 6B, IgG1, Clone: [PB36], Monoclonal |
| Biozol Catalog Number | NMB-MUB0903P |
| Supplier Catalog Number | MUB0903P |
| Alternative Catalog Number | NMB-MUB0903P |
| Manufacturer | NordicMubio |
| Host | Mouse |
| Category | Antikörper |
| Application | ICC, IHC-Fr, WB |
| Species Reactivity | Human |
| Product Description | Integrins are a family of heterodimeric membrane glycoproteins consisting of non-covalently associated alpha and beta subunits. More than 18 alpha and 8 beta subunits with numerous splice variant isoforms have been identified in mammals. In general, ... |
| Clonality | Monoclonal |
| Clone Designation | [PB36] |
| Isotype | IgG1 |
| UniProt | P26006 |
| Buffer | Each vial contains 100 ul 1 mg/ml purified monoclonal antibody in PBS containing 0.09% sodium azide. |

| | |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Source | PB36 is a Mouse monoclonal IgG1, kappa antibody derived by fusion of SP2/0 Mouse myeloma cells with spleen cells from a BALB/c Mouse immunized with a synthetic peptide corresponding to a 32 amino acid stretch in the cytoplasmic domain of integrin alpha3B |
| Formula | Each vial contains 100 ul 1 mg/ml purified monoclonal antibody in PBS containing 0.09% sodium azide. |
| Application Notes | PB36 is suitable for immunoblotting, immunocytochemistry and immunohistochemistry on frozen tissues. Optimal antibody dilution should be determined by titration, recommended range is 1:50 - 1:100 for immunohistochemistry with avidin-biotinylated Horseradish peroxidase complex (ABC) as detection reagent, and 1:100 - 1:500 for immunoblotting applications. |
