Product Datasheet

Rabbit anti Glial fibrillary acidic protein (K39), Clone: [Polyclonal], Monoclonal NMB-MUB0700S

Article Name	Rabbit anti Glial fibrillary acidic protein (K39), Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-MUB0700S
Supplier Catalog Number	MUB0700S
Alternative Catalog Number	NMB-MUB0700S
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Application	ICC, IHC-Fr, IHC-P, WB
Species Reactivity	Human, Mouse, Rat, Zebrafish
Product Description	GFAP (55 kD) is selectively located in astrocytes and represents the major constituent of astrocytic intermediate filaments. GFAP expression levels are highly variable during development of the central nervous system. In adults, GFAP levels increase ...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	P14136
Buffer	Each vial contains 100 ul Rabbit polyclonal Serum containing 0.09% sodium azide.

Source	K39 is a Rabbit polyclonal antiSerum derived by immunization of a Rabbit with a glial fibrillary acidic protein preparation from Human spinal cord.
Formula	Each vial contains 100 ul Rabbit polyclonal Serum containing 0.09% sodium azide.
Application Notes	K39 is suitable for immunoblotting, immunocytochemistry on permeabilized cells and immunohistochemistry on frozen and paraffin-embedded tissues. Optimal antibody dilution should be determined by titration, recommended range is 1:100 - 1:200 for immunohistochemistry with avidin-biotinylated Horseradish peroxidase complex (ABC) as detection reagent, and 1:100 - 1:1000 for immunoblotting applications.
