| Category                   | Antikörper                                                                                                                                                                                                                                |
| Application                | WB                                                                                                                                                                                                                                        |
| Species Reactivity         | Human                                                                                                                                                                                                                                     |
| Immunogen                  | Synthetic peptide derived from human Numb protein                                                                                                                                                                                         |
| Product Description        | Implicated in the control of cell fate decisions during development. Interacts with EPS15, LNX and NOTCH1. May interact with DUOXA1. Interacts with RALBP1 in a complex also containing EPN1 and TFAP2A during interphase and mitosis.... |
| Concentration              | Lot specific, see vial                                                                                                                                                                                                                    |
| UniProt                    | <a href="#">P49757</a>                                                                                                                                                                                                                    |
| Buffer                     | Provided as solution in phosphate buffered saline with 0.08% sodium azide                                                                                                                                                                 |
| Purity                     | Antigen Immunoaffinity Purification                                                                                                                                                                                                       |
| Form                       | Affinity Purified                                                                                                                                                                                                                         |

|                   |                                                                                                                                                                            |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formula           | Provided as solution in phosphate buffered saline with 0.08% sodium azide                                                                                                  |
| Application Notes | Antibody can be used for Western blotting (1:400 starting dilution) and immunohistochemistry (10-15 µg/ml). Optimal concentration should be evaluated by serial dilutions. |
