### Goat anti Human C1s, Clone: [Polyclonal], Monoclonal NMB-GAHU/C1S

Article Name	Goat anti Human C1s, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAHU/C1S
Supplier Catalog Number	GAHu/C1s
Alternative Catalog Number	NMB-GAHU/C1S
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Product Description	The reactivity of the antiserum is restricted to C1s. In immunoelectrophoresis and radial immunodiffusion (Ouchterlony), using various antiserum concentrations against fresh normal human plasma a single precipitin line is obtained which shows a react...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	<a href="#">P09871</a>
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized an
Source	C1 component of human complement is a complex of three glycoproteins: C1q, C1r and C1s. C1s has a molecular weight of 83,000 and is present in plasma in an average concentration of 50 µg/ml, either as a complex with C1q and C1s or in the absence of C1q as

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Application Notes	Precipitation assays. Dilutions may be prepared by adding phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the antiserum. Diluted antiserum should be stored at +4C, not refrozen, and preferably used the same day.
