## Product Datasheet

### Goat anti Human IgA (Fc specific), conjugated with Horseradish peroxidase, Clone: [Polyclonal], HRP, Monoclonal NMB-GAHU/IGA(FC)/PO

|                            |   |
|----------------------------|---|
| Article Name               | Goat anti Human IgA (Fc specific), conjugated with Horseradish peroxidase, Clone: [Polyclonal], HRP, Monoclonal   |
| Biozol Catalog Number      | NMB-GAHU/IGA(FC)/PO   |
| Supplier Catalog Number    | GAHu/IgA(Fc)/PO   |
| Alternative Catalog Number | NMB-GAHU/IGA(FC)/PO   |
| Manufacturer               | NordicMubio   |
| Host                       | Goat  |
| Category                   | Antikörper  |
| Conjugation                | HRP   |
| Product Description        | The reactivity of the antiserum is directed to the Fc subunit of the IgA molecule which expresses strict isotypic (class) specificity. It does not react with any non-Ig protein in human serum, as tested by immunoelectrophoresis and double radial immu...   |
| Clonality                  | Monoclonal  |
| Clone Designation          | [Polyclonal]  |
| Buffer                     | Horseradish peroxidase-coupled purified hyperimmune goat IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distille |

|                   |   |
|-------------------|---|
| Source            | Purified polyclonal IgA and monoclonal IgA2 isolated from human serum. Freund's complete adjuvant is used in the first step of the immunization procedure.  |
| Form              | HRP   |
| Formula           | Horseradish peroxidase-coupled purified hyperimmune goat IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. |
| Application Notes | ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting.  |
