## Product Datasheet

### Goat anti Human IgG (Fc specific), Clone: [Polyclonal], Monoclonal NMB-GAHU/IGG(FC)

Article Name	Goat anti Human IgG (Fc specific), Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAHU/IGG(FC)
Supplier Catalog Number	GAHu/IgG(Fc)
Alternative Catalog Number	NMB-GAHU/IGG(FC)
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Species Reactivity	Human
Conjugation	Unconjugated
Format	Antiserum
Target Specificity	IgG (Fc)
Cross-Adsorption (MinX)	Bovine,Feline,Gallus,Canine,Guinea pig,Hamster (all),Equine,Mouse,Rabbit,Rat,Sheep,Porcine
Product Description	The reactivity of the antiserum is restricted to the Fc part of IgG. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal human serum a single precipitin line is obtained which shows a reaction of...
Clonality	Monoclonal
Clone Designation	[Polyclonal]

Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized an
Source	Highly purified Fc fragment of normal IgG isolated from pooled human serum. Freunds complete adjuvant is used in the first step of the immunization procedure.
Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Antibody Type	Secondary Antibody
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl serum or equivalent against 120 µl antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl serum samples (neat and serially diluted in 2 mm diameter peripheral wells.
