Product Datasheet

Goat anti Human protein C, Clone: [Polyclonal], Monoclonal NMB-GAHU/PC

Article Name	Goat anti Human protein C, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAHU/PC
Supplier Catalog Number	GAHu/Pc
Alternative Catalog Number	NMB-GAHU/PC
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Product Description	The defined antibody specificity is to human protein C as tested at the level of sensitivity of immunoprecipitation and ELISA techniques. Precipitation obtained in gel immunoelectrophoresis and double radial immunodiffusion (Ouchterlony) using variou...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized an
Source	Protein C is a glycoprotein (MW 60,000) which is synthesized in the liver. It acts as a trypsin like serine protease but functions in a manner different from that of antithrombin III. Activated protein C (pCa) results from proteolytic cleavage of protein

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Application Notes	Precipitation assays. Dilutions may be prepared by adding phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the antiserum. Diluted antiserum should be stored at +4C, not refrozen, and preferably used the same day.
