Product Datasheet

Goat anti Human transferrin, Clone: [Polyclonal], Monoclonal NMB-GAHU/TRF

Article Name	Goat anti Human transferrin, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAHU/TRF
Supplier Catalog Number	GAHu/Trf
Alternative Catalog Number	NMB-GAHU/TRF
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Product Description	The reactivity of the antiserum is restricted to transferrin as tested in immunoelectrophoresis and radial immunodiffusion. A characteristic single precipitin line is obtained with normal serum which shows a reaction of identity with the precipitin line of the antiserum.
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	P02787
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized antiserum with 1 ml of distilled water.
Source	Purified transferrin isolated from pooled human serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl serum or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in 3 mm diameter centre well and 2 µl serum samples (neat and serially diluted) in 2 mm diameter peripheral wells.
