Product Datasheet

Rabbit Antiserum anti-Rat IgA-unconj., MinX none NMB-RARA/IGA(FC)

Article Name	Rabbit Antiserum anti-Rat IgA-unconj., MinX none
Biozol Catalog Number	NMB-RARA/IGA(FC)
Supplier Catalog Number	RARa/IgA(Fc)
Alternative Catalog Number	NMB-RARA/IGA(FC)
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Species Reactivity	Rat
Conjugation	Unconjugated
Format	Antiserum
Target Specificity	IgA
Cross-Adsorption (MinX)	no cross-adsorbtion
Product Description	The reactivity of the antiserum is restricted to the Fc part of the IgA molecule. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal rat serum a single precipitin line is obtained which shows a ...
Clonality	Polyclonal
Clone Designation	[Polyclonal]

Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilize
Source	Highly purified pools of monoclonal IgA isolated from rat serum. Freund's complete adjuvant is used in the first step of the immunization procedure.
Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Antibody Type	Secondary Antibody
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 μ l serum or equivalent against 120 μ l antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 μ l antiserum in 3 mm diameter center well and 2 μ l serum samples (neat
