## Product Datasheet

### Rabbit Antiserum anti-Swine IgA (Secretory)-unconj., MinX none NMB-RASW/SIGA

Article Name	Rabbit Antiserum anti-Swine IgA (Secretory)-unconj., MinX none
Biozol Catalog Number	NMB-RASW/SIGA
Supplier Catalog Number	RASw/sIgA
Alternative Catalog Number	NMB-RASW/SIGA
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Species Reactivity	Porcine
Conjugation	Unconjugated
Format	Antiserum
Target Specificity	IgA (Secretory)
Cross-Adsorption (MinX)	no cross-adsorbtion
Product Description	The reactivity of the antiserum is restricted to the Fc part of the IgA molecule and the surface and hidden determinants of the secretory component. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against n...
Clonality	Polyclonal
Clone Designation	[Polyclonal]

Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilize
Source	Highly purified secretory IgA isolated from pooled swine milk. Freunds complete adjuvant is used in the first step of the immunization procedure.
Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Antibody Type	Secondary Antibody
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl serum or equivalent against 120 µl antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl serum samples (neat)
