| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FACS, IF                                                                                                                                                                                                                                                      |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | RBL-2H3 cells expressing human CLEC9A fused to an HA epitope. Its epitope maps to within amino acids 50-110.                                                                                                                                                  |
| Product Description        | This MAb recognizes a protein of 27kDa, identified as CLEC9A (C-type lectin domain family 9 member A). Its epitopes maps in aa 50-110. The C-type lectin/C-type lectin-like domain (CTL/CTLD) superfamily consists of a variety of proteins that share a c... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                                                                                                                                                                                                |
| Clone Designation          | [8F9]                                                                                                                                                                                                                                                         |
| Isotype                    | Mouse IgG2a, kappa                                                                                                                                                                                                                                            |
| UniProt                    | Q8RU4                                                                                                                                                                                                                                                         |

|                    |                                                                                    |
|--------------------|------------------------------------------------------------------------------------|
| Buffer             | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                     |
| Purity             | Protein G affinity chromatography                                                  |
| Form               | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                     |
| Target             | CLEC9A                                                                             |
| Antibody Type      | Primary Antibody                                                                   |
| Application Dilute | Flow cytometry: 1-2ug/10 <sup>6</sup> cells in 0.1ml, Immunofluorescence: 1-2ug/ml |
| Application Notes  | Optimal dilution of the CLEC9A antibody should be determined by the researcher.    |
