| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Amino acids 25-39 (NGAEDESAEAFPLEF) from human ACTH were used as the immunogen for this recombinant CLIP antibody.                                                                                                                                            |
| Product Description        | ACTH (same as Corticotropin) is a 39 amino acid active peptide produced by the anterior pituitary. This MAb is specific to CLIP (aa25-39 of ACTH), does not react with Synacthen (aa1-24 of ACTH). POMC (pro-opiomelanocortin or corticotropin-lipotropin)... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                                                                                                                                                                                                |
| Clone Designation          | [CLIP/2859R]                                                                                                                                                                                                                                                  |
| Isotype                    | Rabbit IgG, kappa                                                                                                                                                                                                                                             |

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| UniProt            | <a href="#">P01189</a>                                                                    |
| Buffer             | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                            |
| Purity             | Protein A affinity chromatography                                                         |
| Form               | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                            |
| Target             | CLIP                                                                                      |
| Antibody Type      | Primary Antibody                                                                          |
| Application Dilute | ELISA (order BSA-free format for coating)                                                 |
| Application Notes  | Optimal dilution of the recombinant CLIP antibody should be determined by the researcher. |
