| Product Description        | Cyclic hydroxylamine spin probe for in vivo, intraperitoneal and intravenous injections. Lifetime of more than 4 hours in blood plasma, in cells and tissue. Allows quantitative measurements of extracellular O <sub>2</sub> - and quantification of intracellular O <sub>2</sub> -... |
| Molecular Weight           | 214.4 . 72.9                                                                                                                                                                                                                                                                            |
| Formula                    | C <sub>12</sub> H <sub>26</sub> N <sub>2</sub> O . 2HCl                                                                                                                                                                                                                                 |
