Thrombomodulin Antibody (Center) Blocking Peptide ABT-BP6779C

Article Name	Thrombomodulin Antibody (Center) Blocking Peptide
Biozol Catalog Number	ABT-BP6779C
Supplier Catalog Number	BP6779c
Alternative Catalog Number	ABT-BP6779C-500UG
Manufacturer	Abcepta
Category	Proteine/Peptide
Product Description	Thrombomodulin is an endothelial-specific type I membrane receptor that binds thrombin. This binding results in the activation of protein C, which degrades clotting factors Va and VIIIa and reduces the amount of thrombin generated....
NCBI	7056
UniProt	P07204
Form	Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.
Target	The synthetic peptide sequence used to generate the antibody AP6779c was selected from the Center region of human Thrombomodulin. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.
