### GAB2 Antibody (N-term) Blocking Peptide ABT-BP6908A

|                            |  |
|----------------------------|--|
| Article Name               | GAB2 Antibody (N-term) Blocking Peptide  |
| Biozol Catalog Number      | ABT-BP6908A  |
| Supplier Catalog Number    | BP6908a  |
| Alternative Catalog Number | ABT-BP6908A-500UG  |
| Manufacturer               | Abcepta  |
| Category                   | Proteine/Peptide   |
| Product Description        | GAB2 is the principal activator of phosphatidylinositol-3 kinase in response to activation of the high affinity IgE receptor....   |
| NCBI                       | <a href="#">9846</a>   |
| UniProt                    | <a href="#">Q9UQC2</a>   |
| Form                       | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.   |
| Target                     | The synthetic peptide sequence used to generate the antibody AP6908a was selected from the N-term region of human GAB2. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay. |
