PCM-1 Antibody (Center-2) Blocking Peptide ABT-BP7481D

| | |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Article Name | PCM-1 Antibody (Center-2) Blocking Peptide |
| Biozol Catalog Number | ABT-BP7481D |
| Supplier Catalog Number | BP7481d |
| Alternative Catalog Number | ABT-BP7481D-500UG |
| Manufacturer | Abcepta |
| Category | Proteine/Peptide |
| Product Description | PCM-1 is required for centrosome assembly and function. This protein is essential for the correct localization of several centrosomal proteins including CEP250, CETN3, PCNT and NEK2. The protein is required to anchor microtubules to the centrosome.... |
| NCBI | 5108 |
| UniProt | Q15154 |
| Form | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed. |
| Target | The synthetic peptide sequence used to generate the antibody AP7481d was selected from the Center-2 region of human PCM-1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay. |
