### AGPAT3 Antibody (Center) Blocking Peptide ABT-BP8686C

|                            |  |
|----------------------------|--|
| Article Name               | AGPAT3 Antibody (Center) Blocking Peptide  |
| Biozol Catalog Number      | ABT-BP8686C  |
| Supplier Catalog Number    | BP8686c  |
| Alternative Catalog Number | ABT-BP8686C-500UG  |
| Manufacturer               | Abcepta  |
| Category                   | Proteine/Peptide   |
| Product Description        | AGPAT3 is an acyltransferase that converts lysophosphatidic acid into phosphatidic acid, which is the second step in the de novo phospholipid biosynthetic pathway. This protein may be an integral membrane protein....                           |
| NCBI                       | <a href="#">56894</a>  |
| UniProt                    | <a href="#">Q9NRZ7</a>   |
| Form                       | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.   |
| Target                     | The synthetic peptide sequence used to generate the antibody AP8686c was selected from the Center region of human AGPAT3. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay. |
