| Manufacturer               | Abcepta                                                                                                                                                                                                                                           |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                  |
| Product Description        | BXDC5 may be required for ribosome biogenesis....                                                                                                                                                                                                 |
| NCBI                       | <a href="#">80135</a>                                                                                                                                                                                                                             |
| UniProt                    | <a href="#">Q9H9Y2</a>                                                                                                                                                                                                                            |
| Form                       | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.                                                                                                              |
| Target                     | The synthetic peptide sequence used to generate the antibody AP9009c was selected from the Center region of human BXDC5. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay. |
