| Alternative Catalog Number | ABT-BP7267A-500UG                                                                                                                                                                                           |
| Manufacturer               | Abcepta                                                                                                                                                                                                     |
| Category                   | Proteine/Peptide                                                                                                                                                                                            |
| Product Description        | Meox1 is a member of a subfamily of non-clustered, diverged, antennapedia-like homeobox-containing genes. This protein may play a role in the molecular signaling network regulating somite development.... |
| NCBI                       | <a href="#">4222</a>                                                                                                                                                                                        |
| UniProt                    | <a href="#">P50221</a>                                                                                                                                                                                      |
| Form                       | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.                                                                        |
| Target                     | The synthetic peptide sequence is selected from aa 22-38 of HUMAN MEOX1                                                                                                                                     |
