| Species Reactivity         | Human, Mouse                                                                                                                                                                                                                                        |
| Product Description        | CNOT4 has intrinsic E3 ubiquitin ligase activity. Binding of the CNOT4 RING finger to the ubiquitin-conjugating enzyme (E2) UbcH5B is highly selective. The CCR4-NOT complex functions as a global regulator of RNA polymerase II transcription.... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                          |

| Form          | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification. |
| Target        | This CNOT4 antibody is generated from rabbits immunized with human CNOT4 recombinant protein.                                                                                |
