| Alternative Catalog Number | ROC-600-403-GQ0S                                                                                                                                                        |
| Manufacturer               | Rockland Immunochemicals                                                                                                                                                |
| Host                       | Rabbit                                                                                                                                                                  |
| Category                   | Antikörper                                                                                                                                                              |
| Application                | ELISA                                                                                                                                                                   |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                       |
| Immunogen                  | Anti-MEK1 Antibody was produced in rabbits by repeated immunizations with synthetic peptide corresponding to amino acid residues near the C-terminus conjugated to KLH. |
| Conjugation                | HRP                                                                                                                                                                     |
| Clonality                  | Polyclonal                                                                                                                                                              |
| Concentration              | 1.0 mg/ml by UV absorbance at 280 nm                                                                                                                                    |
| NCBI                       | <a href="#">02750</a>                                                                                                                                                   |
| UniProt                    | <a href="#">Q02750</a>                                                                                                                                                  |
| Buffer                     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                              |
| Form                       | Liquid (sterile filtered)                                                                                                                                               |

|                    |                                                                                                                                                                                                                                 |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target             | Human                                                                                                                                                                                                                           |
| Antibody Type      | Primary Antibody                                                                                                                                                                                                                |
| Application Dilute | ELISA: 1:40,000, FLISA: 1:40,000, WB: 1µg/mL                                                                                                                                                                                    |
| Application Notes  | Anti-MEK 1 Peroxidase conjugated antibody has been tested by ELISA and is suitable for use in Western Blotting. Specific conditions of reactivity should be optimized by the end user. Expect a band of approximately 43.5 kDa. |
